

What do you do with your OLD Computer?

URGENT NEED FOR COMPUTERS

For the past 16 years, GE Elfun Computer Rehab has provided free computers to Capital District schools, churches and many other non profit organizations. Due to present economic conditions many large and small businesses and individuals, who in the past who have generously contributed computers to our effort, have delayed purchasing new equipment. At the same time school budgets have been reduced and non profit groups have insufficient funds to purchase vitally needed computer equipment. The result has been a greater demand and a severely diminished supply of surplus computers.

WE URGENTLY NEED SURPLUS COMPUTERS TO CONTINUE TO PROVIDE THIS IMPORTANT SERVICE TO OUR COMMUNITY.

GE Elfun Computer Rehab of Schenectady, Inc. is a non profit corporation and a Microsoft Authorized Refurbisher. We are a community service program of the GE Elfun Society (a volunteer organization of GE retirees). We have donated over 8100 computer systems to over 1000 organizations since being founded in 1993.

We need computers, 1000 MHz Pentium or faster, monitors, memory modules, hard drives (6GB minimum), modems, printers, network equipment, etc. All hard drive data will be deleted and the equipment will be repaired. Donated computers are inspected, cleaned, repaired and checked for serviceability. In most cases they have been retired from service and were replaced by newer and faster equipment. They are capable of giving good service in word processing, spreadsheets, accounting, communications, etc. All software is removed from the hard drive and a Windows XP Professional operating system is installed as a starting point to install the application software needed by organizations.

Since we are a non profit, charitable corporation you are eligible for a tax write off on all donated surplus computers and associated equipment. A receipt is provided under our letterhead as proof of donations.

If you have outdated computer equipment that you would like to recycle for a worthy cause, please contact:
